Description: "The plan conforms to the requirements by being divided into five contiguous districts. All five districts are within 5 tenths of a percent of the median population target. The goal was to maintain the status quo as much as possible of the current districts and at the same time conform to population requirements.

District 1 Central Orange County meant to take in the largely minority areas of Santa Ana and Little Saigon.

District 2 Contains the western portion of the county and the north coastal area.

District 3 This district is meant to contain the inland mountainous eastern portion of the county primarily the "hills" communities as well as Orange and Irvine.

District 4 This district is meant to contain the northern portion of the county including the strongly minority areas of Anaheim Fullerton and La Habra.

District 5 This district contains the southern portion of the county. The inland hills and mountainous portion of the county and the south coastal region of the county are included in this district."

Description: "This plan attempts to clean up the existing district boundaries by making all cities save Anaheim whole. Newport Beach is made whole by moving Newport Coast from Fifth District to Second. Garden Grove is made whole by moving the western portion from Second to First. An unincorporated area of the County in Third District is moved to Fifth District as it is in RSM's sphere of influence. Brea is moved from Third District to Fourth which is geographically more contiguous. The population difference between the largest and smallest district is 11.3%. The population spread may greater than 10% however that gap can only be closed by further splitting up cities."
